Jeffrey R. Butler
Superintendent
Richmond State Hospital
398 N.W. 18th Street
Richmond, IN 47374

Dear Mr. Butler:

This refers to our letter dated May 18, 2004 in which we informed you of our finding that your psychiatric hospital no longer met the federal requirements for participation in the Medicare program.

The federal consultants who conducted a resurvey at Richmond State Hospital on July 16, 2004 advised us that key corrections have been implemented and that your psychiatric hospital once again complies with the Medicare Conditions of Participation.

We have, therefore, rescinded the termination of your Medicare provider agreement. You should report to the State agency any changes in staffing, services or organization which might affect your certification status.

If you have any questions, please contact Chaya Kaplan-Schoenberg in our Chicago Office at (312) 886-5212.

Sincerely,

Robert P. Daly, Manager
Non-Long Term Care Branch
